RELEVANT WORK EXPERIENCE

Junior Software Engineer, GlobalWide Media

LOS ANGELES, CALIFORNIA

APR 2018 – CURRENT

- Analyzed code test coverage and designed test logic to bring overall test coverage from 9% to 20%.
- I just started this job a few weeks ago, cut me some slack!
- But I guess I've collaborated on a advertisement-related client-relationship management system (CRM)
- Professional socializer and schmoozer. I will prevent you from getting work done.
- Thank you UCLA and Oregon State ☺

System Integration Engineer, MeridianLink

COSTA MESA, CALIFORNIA

JUL 2017 – APR 2018

- Design and develop integration features and bugfixes in collaboration with product design and software development teams
- Operate, monitor, and troubleshoot high-volume mortgage document integration with over 15,000 requests per day
- Debug code, analyze system logs, and test XML Payload data to troubleshoot integration issues
- Collaborate with clients and 3rd-party service vendors on projects utilizing APIs
- Publish and maintain framework integration guides, schemas, and other supporting documentation
- Evaluate and overhaul existing system integrations to maintain compatibility with business partners' APIs

Customer Productivity Engineer, MeridianLink

COSTA MESA, CALIFORNIA

JUN 2016 – JUL 2017

- Promoted to System Integration Engineer team after 1 year, typically a 2-year minimum before switching roles
- Interpreted code, system logs, and other data to troubleshoot technical issues reported by clients
- Authored internal and client-facing documentation for new and existing features or behaviors
- Developed innovative business solutions and features to streamline workflow or circumvent system bugs
- Deployed and implemented multi-factor authentication strategies for clients as part of our MFA security initiative
